

## Season 1 Episode 20

## Principal Karen

Ivan as a kid is in a principal's office and a deranged looking female principal stands over Ivan. The principal said, "Ivan. Do you know what you have going for you in life?" Ivan said, "How would I know? I am just a kid." The principal said, "Look Ivan, you are weird and strange and have an uncanny fascination with the yin-yang." Ivan said, "What is wrong with the yin-yang?" The principal said, "It is unhealthy and disgusting that you have such an obsession. I know what your deal is. You are not a normal kid like everyone else. You have Asperger's and don't belong with normal kids. You spend your time playing crappy Nexteno games and your way of life is not in line with what is expected. You are coming with me." The principal grabs Ivan by the ear and makes him work in a class filled with deranged kids and Ivan ends up failing the class and falling behind in academics. Principal Karen looks over this and laughs and she said, "This is how you are going to spend the rest of your life. You will be a kid in school forever. You will never get far in life!" Ivan wakes up and he is in bed and he rubs his eyes. Ivan said, "It is a nightmare but something seems very real about it. It seems like it is something that may have happened long ago in a suppressed memory."

Ivan is walking down a bright and sunny Ultraverse street with Keith. Keith said, "It is likely a fake memory caused by some of the mind's subconscious cognitive functions. You know the things that go on in your mind do not reflect on things in the outside world." Ivan said, "I like to think that's how it is." Keith said, "Then again. I only know about this from normal people and I don't know much about those yin-yangites you claim to be." Ivan and Keith hear a glass smashing sound and they both run down the street to see what it is. They see a somewhat large robot with a TV screen for a head and it is capable of spinning its body around and it extends its large thick wired arms. The robot attacks a game and hobby store. Ivan and Keith draw their swords and they go to fight the robot. The robot wraps its wire arms around Keith's sword. Keith tries to break the sword free and Ivan cuts off the wire arms and frees Keith's sword. Keith and Ivan jump at the robot. Ivan and Keith slash the robot and the robot flinches back. Keith throws his sword into the robot's body and it stabs into it and Keith makes the sword fly back into his hand. The robot goes crazy and throws all its wires at Keith and Ivan. Keith and Ivan cut down all the wire arms and Ivan runs to the center of the robot and slashes it. The robot takes damage from the slash but it still grabs onto Ivan. Keith jumps and slashes parts of the robot with extreme accuracy and the robot falls to pieces around Ivan. Ivan said, "How did you do that?" Keith said, "It is the cyan

sword of redemption. It has a unique connection with me and it allows me to understand the psychology of my enemy which would include its weakness.” Ivan said, “That’s interesting. What is this robot and where did it come from?” Keith inspects the remains of the robot and Keith said, “I will have to take it to that lab I helped construct and we will further analyze it there.”

Ivan and Keith are in the monk laboratory and they look at the core motherboard of the robot. Keith said, “I have dealt with all kinds of hostile robots but I have never dealt with one’s made like this. This robot barely has anything in it. All it has in its core is a motherboard incased in plastic. We may still be able to locate the origin of this.” Keith takes the motherboard of the robot and he places it into a hi-tech computer where it is analyzed. Keith looks at the readings and Keith said, “It appears as if the manufacturer of the motherboard is unknown but it is able to locate the origin of the motherboard based on an encoded IP address. It seems to be coming from a planet in universe B-09. I will assemble a team there and we will go to this planet and find out where this came from. There could be more of these things and this could be someone’s plot to take over the Ultraverse. You saw how hard it was taking down one of these. Imagine a whole army of them.” Ivan said, “I didn’t even destroy it. You only destroyed it because you had your cyan sword of redemption. I also think you are jumping to a conclusion here. We don’t know who built the robot nor do we know if there are more of them. This could be the only one from what we know.” Keith said, “That could be the case but I still would like to examine the origin. We monks must be cautious of any potential threat to the Ultraverse. Also, sending things to the Ultraverse from a universe requires technology that the average person does not have. It is likely the robot was sent by someone that knows their way around the Ultraverse.”

Ivan, Safron, Dirk, and a bunch of other monks gather around Keith in a monk transport flying through space in the universe of the robot’s origin. Keith said, “This robot appears to have only one significant part and it is the motherboard located in the chest of the robot.” Keith shows the monks a diagram of the robot. Keith said, “Look out for these robots and be prepared for them at all costs.”

The monks land on the planet and it is a red and arid desert. The monks walk around but stay in groups and they examine the rock formations. All the monks have their swords drawn out. Ivan, Safron, and Dirk are right next to Keith leading the entire operation. Ivan said, “There doesn’t seem to be anything here.” Keith said, “It could all be under the surface. I have dealt with my fair share of underground labs.” Ivan said, “How would we get to one of these labs?” Keith said, “There is usually a trap door somewhere or a rock that triggers something.” Ivan walks near a large vertical curved rock and a door opens underneath Ivan’s feet and Ivan falls down a chute. Safron yells, “IVAN!” Safron tries to run to the trap door but it closes. Safron stands over where the

door was and she jumps on it. Safron said, "There was clearly a trap door here and it doesn't seem to open." Keith said, "There must be a way to trigger it. Somehow, Ivan triggered the door. What was Ivan doing when it opened?" Dirk said, "He was just walking normally around it." Dirk walks where Ivan was and the door does nothing. Dirk said, "How did it work for Ivan and not me?" Keith said, "It must be a motion specific sensor or something of that sort." The monks hear a loud sound and they see a crack forms in the surface and a giant version of the robot from earlier jumps out of the crack and lands in front of the monks.

The robot wraps its wires around some of the monks and it throws them away. Keith draws his sword at it. Keith said, "I've dealt with one of these before. Safron, Dirk, try to find a way to get to the underground. You have to find Ivan and bring him to safety. The Ultraverse depends on it. I will stay here with the rest and try to take this thing out." Safron and Dirk leave the group and Keith and the group fight the robot.

Ivan falls down a chute and he ends up in a dimly candle place filled with fancy carpets and ancient sculptures and paintings on the wall. The paintings look like significant people from some other universe painted with photo realistic detail. Ivan walks around the place and he hears the voice of the principal from his nightmare say, "Ivan. You finally found yourself where you belong." Ivan turns around and he sees the principal from his nightmare. Ivan said, "You are that hag principal from my nightmare. How did you get into reality?" The principal said, "Don't you remember me? I always existed in reality. I was your principal in middle school. My name is Principal Karen Yhanzi." Ivan said, "Look, Karen..." Karen said, "Don't call me that. Call me Principal Yhanzi." Ivan said, "Okay, Principal Yhanzi. I don't know what your deal is. I strongly suggest you stay out of my mind." Principal Yhanzi said, "Those nightmares you've been having are real. They are from your past. It is my job to make sure you don't contaminate other people with your Asperger's. You are a disease to the Ultraverse and it is my responsibility to make sure you do not interact with people nor spread your ways to other people." Ivan gives a stern look to Principal Yhanzi. Ivan starts to see the paintings change and they display traumatizing things from Ivan's past. Ivan's mind gets overloaded with memories of things Yhanzi did to him. Ivan falls to his knees and he grabs on tightly to his head. Ivan yells, "What are you doing! Make it stop! You win!" Ivan's skull starts to bulge a bit. Yhanzi grabs onto Ivan's ear.

Keith duels the arms of the robot and Keith lures the robot near the edge of a cliff. The robot spins its arms around and Keith jumps and dodges the arms. The robot uses its wired arms to knock the cyan sword of redemption out of Keith's hand and it falls down the cliff. The robot punches all its fists into the ground in front of Keith and Keith falls down the cliff and he grabs onto a rock formation on the side of the cliff and hangs there. The robot jumps down at Keith and grabs onto the same rock formation as

Keith but the robot is below Keith. The robot grabs onto Keith with its wired arms and it slowly crushes Keith. Keith concentrates hard and he makes his sword fly back to him and it cuts through the wire arms of the robot. Keith makes his sword be a platform and he jumps on it. The robot grabs onto the bottom of the sword. Keith jumps back to the edge of the cliff and he makes the sword fly back to him with the robot still on the sword. Keith beats up the robot in the head and Keith cuts the motherboard out of the robot. Keith holds the motherboard in his hand and the robot looks at it. The robot smashes Keith and lifts up Keith with two thick arms it still has.

Safron and Dirk trek through the arid desert. Safron said, "If this ground weren't so rocky and gritty, I would use my skateboard to skate through this. We would have found Ivan by now if that were the case." Dirk said, "I am going to pound whoever did this to Ivan." Safron and Dirk trek several miles and they find an open entrance in a rock formation that leads to a pitch-black tunnel. Safron and Dirk look at each other and they enter the tunnel. It is pitch black and they take out monk lanterns. Safron and Dirk see markings on the wall that depict ancient people and their fight against people with yin-yangs on them. It shows the ancient people winning over the yin-yang people and the yin-yang people go into hiding. Safron looks at this and she said, "This looks like the kind of thing Ivan would be in to." Dirk said, "He does have a fascination with the yin-yang and the culture behind it." Safron said, "This looks like something tied to Ivan's history."

Ivan appears in a field of lush green grass and hills. Ivan walks around the greenery and he walks into a forest where he sees wooden desks set up with paper and quill pens. Ivan also sees a fireplace oddly set up. Ivan said, "Who sets up a desk with a fireplace in the middle of a forest?" There are books present and they have yin-yangs on them. Ivan picks up the first book and he looks through it. Ivan said, "This book says that the yin-yang is a load of bull." The book contains illustrations of a fat kid dressed as a clown with a yin-yang on him and he is crying. Ivan reads, "'Yin-yang mythology is a hoax. The real cause of this is Asperger's.' What does that have to do with yin-yangs?" Ivan looks through the other book and it makes yin-yangites look like fools that are mentally deranged and it discourages people from being like them. Ivan said, "How could people hate the yin-yang so much?" Ivan also reads about hostile monsters that murder yin-yangites just for fun.

Safron and Dirk get to the end of the tunnel and they come across a glass door. They open the glass door and they end up in the dimly lit place with luxurious ancient carpets and paintings on the wall of significant people. There is also a table with paper and a quill pen. Dirk said, "What is this place?" Safron said, "This looks like some kind of ancient study room." They see Ivan in the room and Ivan makes groaning sounds and he takes out his sword. Safron said, "Ivan! We were looking for you." Ivan

attempts to slash Safron with his sword and Safron takes out her sword and duels Ivan. Safron said, "Something must be wrong."

Ivan is in the forest looking through the books and two of those monsters shown in the book show up and they make sounds at Ivan. Ivan draws out his sword and one of the monsters draws out a sword. Ivan and that monster duel. The other monster takes out spray canisters and sprays a strong string on Ivan.

Dirk sprays Ivan with his extra strong silly string and Dirk does acrobatic moves and jumps on Ivan and tries to pin him down. Ivan throws Dirk off him and Dirk falls and hits the desk and ink spills on him. Ivan sees that Dirk is covered with ink. Dirk sees he is covered with ink and Dirk takes a quill pen and he writes on paper, "Safron and Dirk were here with Ivan." Ivan sees the writing and he stops fighting. Ivan scratches his head. Safron sees Ivan is looking at the paper and Safron said, "I have an idea." Safron writes in the quill pen and she hands the paper to Ivan. Ivan looks at the paper and it reads, "Ivan. It is Dirk and Safron. We have come and found you. Something must have happened and you view us as bad guys. We are not bad guys. Try to break the trance and come home with us." Ivan is in the woods looking at the paper the monster gave him. Ivan said, "I knew it. This must be a trance of some kind." Ivan thinks hard and a yin-yang starts to form around him. Yin-yangs form around him and Ivan concentrates hard and Ivan creates a blast of yin-yangs and he finds himself seated in a metal seat with things connected to his brain. Ivan pulls out all the wires. Safron and Dirk enter the room. Safron runs to Ivan and kisses him. Safron said, "What did they do to you?" Ivan said, "I don't know." Ivan still looks traumatized and Safron hugs him tightly.

Keith is lifted well in the air and he is smashed into the ground by the robot. The motherboard that was in Keith's hand is smashed too. Keith said, "I cut out his motherboard and he is still alive." Keith makes his sword fly to him and he uses the sword as a platform and he jumps off it and he makes the sword fly back to him while he is in the air in front of the computer monitor head of the robot. Keith rapidly slashes the head and he cuts up the area around the head. Keith lands on the ground in front of the robot. The robot is still alive and attempts to use its feet to crush Keith. Safron runs in the scene and she throws her skateboard behind the robot and it accidentally steps on it and it slide backwards a bit and is left on one foot. Keith gives a powerful slash to the front of the robot and the robot falls down the cliff and there is a large cloud of smoke formed when it hits the ground. Keith looks at Safron and he said, "Thanks." Safron said, "Don't mention it." Keith said, "Did you find Ivan?" Safron said, "We sure did. There is something up with Ivan." Keith sees Ivan sucking his thumb and trembling in fear.

Ivan sits at a table in the monk monastery and Keith, Safron, and Dirk gather around him. Ivan said, "I don't know what it is or how it happened. First I see this, Karen Yhanzi in my nightmares and then she appears in real life and for some reason, a rapid stream of painful and humiliating memories fly through my mind. It is like it is real but there is something off about it. Karen Yhanzi claims it is real and that she is actually from my past. Was she found?" Keith said, "I had monks search the area and there does not appear to be any trace of this, Karen Yhanzi. We will look at the drawings you made of her from your memory (Keith looks at a drawing Ivan made of Karen Yhanzi) and I will further research her. There may be more to this. This may be a plan from one of many of the hostile forces that occupies the vastness of the Ultraverse."
